

Saif Ur Rehman

✉ saifmsd855@gmail.com ☎ 03468860855 📍 Islamabad, Pakistan

Summary

Computer Science student and MERN Stack Developer with strong experience in full-stack web development and AI-integrated systems. Skilled in building scalable web applications using modern JavaScript technologies. Completed professional internships and industry training with hands-on project experience in backend, frontend, and API development

Experience

Software Internee, *National Radio & Telecommunication Corporation (NRTC)* 06/2026 – 07/2026
Pakistan

- Configured and managed Linux-based systems.
- Contributed to the development and maintenance of a web-based PBX management platform using JavaScript for frontend development and Python for backend development.
- Developed responsive and functional frontend interfaces for PBX administration, extension management, call control, and communication services.
- Developed backend functionality in Python to handle PBX operations, system configurations, communication workflows, and application logic.
- Integrated the web application with Asterisk PBX to support VoIP communication and PBX management.
- Performed frontend and backend debugging, API testing, system testing, and troubleshooting to identify and resolve technical issues.
- Collaborated with the IT and development teams to maintain, test, and improve the reliability of the PBX platform.

IT Internee, *Pakistan Ordinance Factories (POF)* 07/2025 – 09/2025
Wah Cantt, Pakistan

- Worked with MERN stack technologies (MongoDB, Express.js, React, Node.js).
- Developed responsive and user-friendly web interfaces.
- Built and integrated RESTful APIs for backend services.
- Handled database operations using MongoDB.
- Assisted in debugging, testing, and improving application performance.
- Collaborated with a development team on real-world projects.

MERN Stack Trainee, 03/2025 – 05/2025

Merge Area Digital & Connect Program, Department of Science & Technology (KPK)

- Completed intensive training in the MERN stack (MongoDB, Express.js, React, Node.js).
- Developed full-stack web applications with authentication, CRUD operations, and RESTful APIs.
- Collaborated with team members on project-based tasks to simulate real-world development environments.

Education

Bachelor of Science in Computer Science, *Gomal University* Dera Ismail Khan, KPK,
CGPA: 3.86 / 4.00 Pakistan

Technical Skills

Languages

JavaScript, Python, SQL

Frontend

HTML5, CSS3, React.js, Tailwind CSS

Backend

Node.js, Express.js, Laravel

Databases

MySQL, MongoDB

Tools

Git, GitHub, Linux, VS Code, Microsoft Office 365

Certificates

HTML, CSS, and JavaScript for Web Developers

Johns Hopkins University (Coursera) – Feb 2024 Verify at: <https://coursera.org/verify/MQ4VYU3BSDQM>

Microsoft 365 Fundamentals

Microsoft (Coursera) – June 2025 Verify at: <https://coursera.org/verify/specialization/6ZJ43VKUQHQR>

Speak English Professionally: In Person, Online & On the Phone

Coursera Verify at: <https://coursera.org/verify/NKPZR7GZ5AZL>

Python for Everybody

University of Michigan (Coursera) – Jan 2024 Verify at: <https://coursera.org/verify/specialization/5HYKJYQJ4BV6>

Google Data Analytics Professional Certificate

Google – Nov 2023 Verify at: <https://coursera.org/verify/professional-cert/CPHBBPKLPSNML>

Prompt Engineering for ChatGPT

Vanderbilt University (Coursera) – Nov 2023 Verify at: <https://coursera.org/verify/QPBB67KJ7M33>

Google IT Support Professional Certificate

Google – Oct 2023 Verify at: <https://coursera.org/verify/professional-cert/ANPHQBFRECJT>

Projects

AI Integrated Online Testing Service (FYP)

Tech Stack: MERN, Python FastAPI, Tailwind CSS, Socket.io, JWT Authentication, MongoDB

- Developed a full-stack online examination system with AI capabilities.
- Integrated with Python FastAPI for AI services. Implemented comprehensive anti-cheating measures including tab-switch detection, copy-paste prevention, and facial recognition.
- The system supports role-based access for admin and students, automated email notifications, certificate generation, and detailed analytics dashboards.

AI- Learning Management System (self learning project)

Tech Stack: MERN, Python FastAPI, Tailwind CSS, Socket.io, JWT Authentication, MongoDB

- Developed a full-stack dashboard for course management, progress tracking, and user engagement.
- Implemented Role-Based Access Control (RBAC) for students and educators.
- Integrated intelligent AI features to provide dynamic content delivery and personalized learning paths.

Awards

PM merit laptop, PM's National Laptop Scheme

Received a PM merit laptop.
